

1 Repost Batch

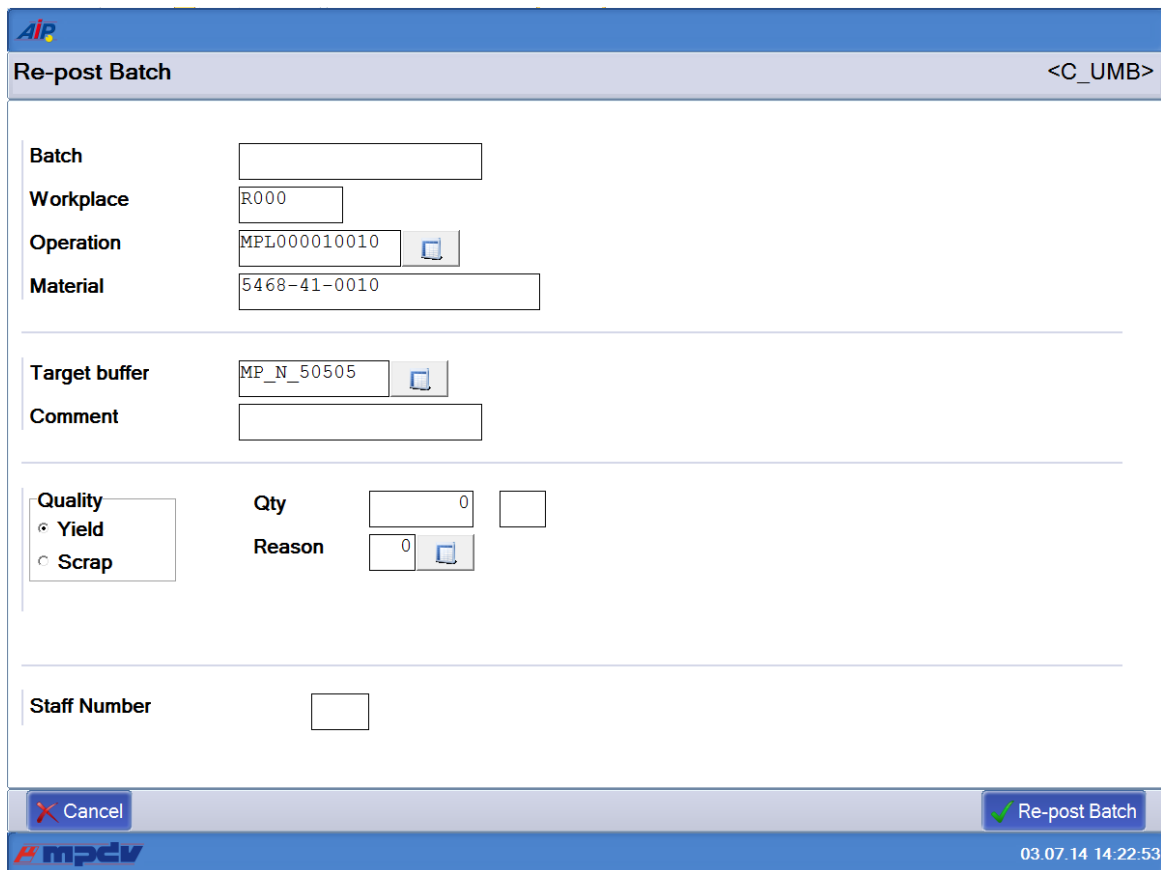

Summary

Using the "repost batch" button, an existing batch may be reposted to another material buffer.

Configuration

Further system configurations are not required to repost batches.

Dialog

Re-post Batch <C_UMB>

Batch:

Workplace:

Operation: 

Material:

Target buffer: 

Comment:

Quality: ☒ Yield ☐ Scrap

Qty:

Reason: 

Staff Number:

 03.07.14 14:22:53

Having clicked the "OK" button, the batch is reposted to a new material buffer and the dialog remains open for further entries.

As an alternative, the batch can also be reposted from yield to scrap.
