

1 Extensions/modifications

Overview

This document describes the extensions/upgrades available in HYDRA 8 that you can enable, for example, by installing new products or new versions of product groups (e.g. MPL 8.2).

2 PZE 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Time & Attendance product group:

Extension	Description	Product
PersonnelSelectionName	Staff is selected by name	PZE-INF 8.2
PersonnelSelectionFields	Staff is selected by " <i>person does not clock</i> "	PZE-INF 8.2
PersonsMassCopy	HR master: Copy all selected staff	PZE-INF 8.2
ptic	Configuration terminal information	PZE-EPP 8.2

3 PZE 8.3

This section deals with the extensions/upgrades available in version 8.3 of the Time & Attendance product group:

Extension	Description	Product
	Subsequent entry of clockings on the AIP	PZE-EPP

4 PZW 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Personnel Time Management product group:

Extension	Description	Product
PZW_FEIERT	Public holidays for employee groups	PZW-BPZ 8.2
PZW_RUHEZ	Configuration of the rest period and its monitoring in personnel scheduling	PZW-BPZ 8.2
PZW_RZV	The list includes a notification of rest period violation	PZW-BPZ 8.2
PZW_KZV	The list includes a notification of core time violation	PZW-BPZ 8.2
PersonalTimeEvaluation-ControlDoesNotClock	Control of labor time calculation for staff that does not clock	PZW-BPZ 8.2
PersonalTimeEvaluation-ControlComment	"Comment" field in the control of labor time calculation	PZW-BPZ 8.2
PersonalTimeEvaluation-ControlAttendance	Control of labor time calculation: convert unplanned absences into attendance time	PZW-BPZ 8.2
PersonalTimeEvaluation-ControlShiftDetection	Control of labor time calculation: Automatic shift identification only if the same target time applies	PZW-BPZ 8.2
ABSPLAN_PZW82	Time for planned absence and internal comment in absence planning	PZW-BPZ 8.2
PersonalAbsencePlanningNewLinks	Links to personnel scheduling, labor time maintenance and to resetting labor time calculation in absence planning	PZW-BPZ 8.2
AllocateBreakCompletely	Completely set off breaks depending on working time when working time is exceeded	PZW-FAZ 8.2
ColoredAccountBalances	Coloring of account balances depends on the respective account balance ("account indicator")	PZW-PAP 8.2
PersonalAbsencePlanningSign	Approve absence requests in absence planning and personnel scheduling	PZW-PZP 8.2
PersonalAbsencePlanningReject	Reject absence requests in absence planning and personnel scheduling	PZW-PZP 8.2
PersonalPlanningData-Models	Select the models to be displayed in personnel scheduling	PZW-PZP 8.2
PersonalTimePlanningPersonalModels	Planning of personal models in personnel scheduling	PZW-PZP 8.2
PersonalTimePlanningComment	Definition of comments in personnel scheduling	PZW-PZP 8.2
PersonalTimePlanning-2Absences	Edit and delete 2 planned absences on a day in personnel scheduling	PZW-PZP 8.2
PersonalTimePlanningLinks	Starts labor time calculation and the function "reset labor time calculation" in personnel scheduling	PZW-PZP 8.2
PZW-ZNW-MAIL	Send time sheet as e-mail	PZW-ZNW 8.2

5 PZW 8.3

This section deals with the extensions/upgrades available in version 8.3 of the Personnel Time Management product group:

Extension	Description	Product
persfieldsPZW83	Replacements in the absence workflow	PZW-WFG
abseApply	Absence requests in different colors in the personnel scheduling	PZW-BPZ
ESK_PZW_PLAN_MOD	Escalations of messages in the messages listing	PZW-ESK
PersonalChangeEscalation	Escalations for shift plan changes (personal day type)	PZW-ESK
PersonalDayTypesInPersonalTimeMaintenance	Button <i>Personal day type</i> in the <i>Labor time maintenance</i>	PZW-PAP
PZW_PTTR PZW_PTTX	Shift plan changes (personal day type) in different colors in the personnel scheduling	PZW-PZP
FzSignAttachIcs	ICS file attached to mail with absence authorization	PZW-WFG
PersonalAbsencePlanningStatus	New selection field <i>Status</i> in the <i>Absence planning</i>	PZW-BPZ
brad	Bradford factor	PZW-PLS
persfieldsPZW83	Extension of the HR master data fields	PZW-BPZ PZE-EPP
PersonalTimePlanningCW	Display of calendar weeks in the <i>Personnel scheduling</i>	PZW-PZP
SMA-APAAVGS SMA-APAABEARBPROF	Selection of the supervisor in the SMA absence planning and authorization	PZW-BPZ
AddAllowRuPersonnelSelection	Additional allowances rule for employee groups	PZW-EVV
PersonalTimeMaintenanceShowWageTypes	Display of wage type postings as columns in the <i>Labor time maintenance</i>	PZW-PAP
pabpModPer	Deleting separate days from absence planning	PZW-PZP
PersonalShiftRhythmModelsCalendar	Calendar view of the <i>Shift rhythm models</i>	PZW-BPZ

6 MPL 8.2

This section describes the extensions/upgrades available in version 8.2 of the Material and Production Logistics product group:

Extension	Description	Product
deletelastbatch	Log off/interrupt OP and delete last batch	MPL-MBV
batchconsumptionextension	Automatic batch consumption	MPL-MBV
qualityclassexension	Extension of the available quantities by yield/open quantity.	MPL-MBV
creatematerialmovement	Extension of the material movements to cancel batches	MPL-MBV
batovextensionselection	Restructuring/extension of batch data overview	MPL-MBV
mmovextensionselection	Restructuring/extension of material movements	MPL-MBV
splitmplop	Splitting OPs that require batch management	MPL-MBV
mtypextension	Restructuring/extension of the material type	MPL-MBV
stovextensionselection	Restructuring/extension of the stock overview	MPL-MPB
stovhuextensionselection	Restructuring/extension of the TPU stock overview	MPL-MPB
reqovextensionselection	Restructuring/extension of the requirements overview	MPL-MPB
warnrpextensionselection	Restructuring/extension of the warning report	MPL-MMO
estatextensionselection	Restructuring/extension of the expiry statistics	MPL-MMO

7 TRT 8.2

This section describes the extensions/upgrades available in version 8.2 of the Tracking and Tracing product group:

Extension	Description	Product
batchsplitextension	Splitting merged batches in the MOC	TRT-CLA
batchmergeextension	Grouping merged batches in the MOC	TRT-CLA
batchconsumptionextension	Automatic batch consumption	TRT-CLA
splitmplop	Splitting OPs that require batch management	TRT-CLA
qualityclassexension	Extension of the available quantities by yield/open quantity.	TRT-CLA
creatematerialmovement	Extension of the material movements to cancel batches	TRT-CLA
passbatchattributes	Pass batch attributes on	TRT-CLA
passdoclinks	Pass on document links of batch	TRT-CLA
mtypextension	Restructuring/extension of the material type	TRT-CLA
mmovextensionselection	Restructuring/extension of material movements	TRT-CLA
batovextensionselection	Restructuring/extension of batch data overview	TRT-CLA
battrgextensionselection	Restructuring/extension of the graphic batch tracing	TRT-GLV
battrexextensionselection	Restructuring/extension of the batch tracing	TRT-PDK
bathiextensionselection	Restructuring/extension of the batch history	TRT-PDK
batlogextensionselection	Restructuring/extension of the batch logs	TRT-PDK
snr_recording	Enter serial numbers	TRT-SNR
snr_union	Merge serial numbers	TRT-SNR
snr_divide	Separate serial numbers	TRT-SNR
edser	Assessment of serial numbers	TRT-SNR

8 ZKS 8.2

This section describes the extensions/upgrades available in version 8.2 of the Access Control product group:

Extension	Description	Product
BadgesVersion2	Different extensions to the badge	ZKS-VWF 8.2
AccessProfileAssignmentVersion2	Copy and edit multiple access profile assignments at once	ZKS-VWF 8.2
AccessPointOpener2	2nd door opening channel included in the configuration of accesses	ZKS-VWF 8.2
AccessPointBiometry	Entrance for biometrics in the configuration of accesses	ZKS-VWF 8.2
TNR-OUL	ZKS terminals working with the AIP or CTWIN program process the feature "office unlocking".	ZKS-EZK 8.2
GraphicMachinery2Search	Searching for objects in the security control center.	ZKS-SLS 8.2

9 PEP 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Personnel Scheduling product group:

Extension	Description	Product
wpasHideFullAssignments	Workplace assignment: hide complete assignments.	PEP-APP 8.2
wpasCopyAssignments	Workplace assignment: Copy assignments.	PEP-APP 8.2
wpasChangeAssignment	Replan assignments by drag & drop.	PEP-APP 8.2
wpasLocking	Workplace assignment: lock workplaces and staff	PEP-APP 8.2
PersonnelScheduleAdditional-Infos	Staff schedule includes additional information fields from the HR master data.	PEP-APP 8.2
wpqualSetup	The application "workforce requirements of workplaces" includes the definition of personnel requirements for the setup.	PEP-APP 8.2
wpsch	New application: workplace schedule	PEP-APP 8.2
quam	New application: qualification matrix	PEP-VWF 8.2
catg	New application: categories	PEP-VWF 8.2
PEP_SCHULUNG	Staff qualifications: management of further trainings	PEP-VWF 8.2
catg	Configuration of categories	PEP-VWF 8.2
PersonalPlanningDataModels	Select the models to be displayed in personnel scheduling	PEP-VWF 8.2
PersonalTimePlanningPersonal-Models	Planning of personal models in personnel scheduling	PEP-VWF 8.2
PersonalTimePlanningComment	Definition of comments in personnel scheduling	PEP-VWF 8.2
PLPROF-MNR	Planning profiles: assignment of individual workplaces	PEP-ESV 8.2
PLPROF-GLOBAL	Generation of planning profiles applicable to all users.	PEP-ESV 8.2

10 HLS 8.2

This section describes the extensions/upgrades available in version 8.2 of the HYDRA Shop Floor Scheduling product group:

Extension	Description	Product
graptmaint	The shop floor scheduling shows maintenances.	HLS-GPT 8.2
graplocking	Graphic planning: lock workplaces and groups.	HLS-FPL 8.2
PLPROF-GLOBAL	Generation of planning profiles applicable to all users.	HLS-FPL 8.2
PLPROF-MNR	Planning profiles: assignment of individual workplaces	HLS-FPL 8.2
grapt.sbap	Planning based on selections.	HLS-FBF 8.2
grapt.sbsp	One-step planning/ step by step planning	HLS-FBF 8.2
HLS_PEP_Qualification	This extension enables the option "check personnel availability" in the workplace configuration. The results are also integrated in the graphic planning.	HLS-BPK 8.2
grapt.dpa	Include staff in planning: a workplace is only available if at least one person is planned (activate this option in the workplace/resource configuration).	HLS-BPK 8.2
grapt.cpq	Include staff/qualifications in planning (activate this option in the workplace/resource configuration).	HLS-BPK 8.2
grapt.spe	Shows personnel assignments in the Gantt chart of the graphic planning.	HLS-BPK 8.2
grapt.suq	You can filter the selection list of qualifications for the personnel deployment histogram of the graphic planning by the qualifications that are required in the current planning scenario.	HLS-BPK 8.2
grapvemvp	The system checks the material availability if planning is performed manually in the graphic planning.	HLS-MVP 8.2

11 WRM 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Tools and Resource Management product group:

Extension	Description	Product
rmcaldoc	Document management in the activity schedule.	WRM-WWR
resovdoc	Document management in the resource overview.	WRM-MGM
reshidoc	Document management in the resource history.	WRM-WWR

12 BDE 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Shop Floor Data Collection product group:

Extension	Description	Product
OTOptionXStatusPrecedingOP PCOptionsStatusPrecedingOP	Application "processing code" The option "check status of preceding OP" is now also available for the processing code.	BDE-BDM
scrst82	Application "Scrap statistic": You can now also start the MOC application "failure mode analysis" from this application.	BDE-CAA
scrpf82	Application "Scrap profile": You can now also start the MOC application "failure mode analysis" from this application.	BDE-CAA
orst82	Application "Order-related statistic": You can switch to the MOC applications "Failure mode analysis", "Inspection requirement" and "Inspection points".	BDE-CAB
scec2	Application "Schedule controlling": You can now also select the responsibility area.	BDE-CAB
orseq2	Application "Order sequencing": You can now also select the responsibility area.	BDE-FST
orov82	Application "Order overview": You can switch to the MOC applications "Inspection requirement" and "Inspection points". You can now also select the responsibility area.	BDE-MAB
orin82	Application "Order information": You can switch to the MOC applications "Inspection requirement" and "Inspection points".	BDE-MAB
fop2	Application "Finished operations": You can now also select the responsibility area.	BDE-MAB
plop2	Application "Pool of orders": You can now also select the responsibility area.	BDE-MAB
aop2	Application "Operations": You can now also select the responsibility area.	BDE-MAB
rop2	Application "Operations logged on": You can now also select the responsibility area.	BDE-MAB
ospr2	Application "Order shift log": You can now also select the responsibility area.	BDE-MAB

13 MDE 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Machine Data Collection product group:

Extension	Description	Product
wphi2	Application "Machine history": shows the entered BDE comments	MDE-MMD
mpark2kpi	Application "Graphic machinery": shows key performance indicators	MDE-SFM
mpark2layrot	Application "Graphic machinery": user-specific configuration for the automatic change of layouts.	MDE-SFM
mpark2roptemp	Application "Graphic machinery": This extension shows the running operations for a workplace	MDE-SFM
oeepf	New report "OEE profile"	MDE-KMO
oeerp82	Application "OEE report": now includes the new KPI "NEE" (Net Equipment Effectiveness).	MDE-KMO
aipkpi	AIP 8.2 shop floor client: Display of key performance indicators ("tile view", icon view)	AIP-BMD
Rstatlist	Application <i>Workplaces/machines</i> : Display of detail application <i>Status</i>	MDE-KZM

14 CAQ 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Quality Management product group:

Extension	Description	Product
cmd.copy	Application <i>Complaint management</i> : Copy complaint details	REK-EVA 8.2
ControlChart.showStatistic	Application <i>Control chart</i> : Shows the "Statistics" detail application	FEP-AFE 8.2 FEP-ERH 8.2 WEP-ERH 8.2
Inspectionplan.MultiCharacteristicsCopyAvailable	Application <i>Inspection planning</i> : Copying selected characteristics to target inspection plans	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
InspectionStep.CopyAvailableExtended		FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
iplcp.copyall	Application <i>Inspection plan</i> Copying characteristics to other inspection plans	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
iplreor	Application <i>Inspection plan</i> While copying inspection plans, you can rearrange the OP sequence.	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
ippdoc	Application <i>Inspection points</i> Assigning documents to inspection points	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
irippdoc	Application <i>Inspection requirement</i> Assigning documents to inspection points	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
iriscp.create	Application <i>Inspection requirement</i> Button to insert inspection step characteristics.	PMV-PPK 8.2
iriscp.delete	Application <i>Inspection requirement</i> Button to delete inspection step characteristics	PMV-PPK 8.2
iriscp.edit	Application <i>Inspection requirement</i> Button to change inspection step characteristics.	PMV-PPK 8.2

iriscpdoc	Application <i>Inspection requirement</i> You can assign documents to inspection step characteristics.	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
irisp.copy	Application <i>Inspection requirement</i> You can copy inspection steps	FEP-PPE 8.2 FEP-PPF 8.2 WEP-PPW 8.2 PMV-PPK 8.2
reshidoc	Application <i>Calibration history / Resource history</i> You can assign documents.	PMV-PPK 8.2
resovdoc	Application <i>Test equipment/gage overview / Resource overview</i> You can assign documents.	PMV-PPK 8.2
rmcaldoc	Application <i>Calibration calendar / Activity calendar</i> You can assign documents.	PMV-PPK 8.2
trdoc	Application <i>Measure tracking</i> You can assign documents.	FEP-FSM 8.2 FEP-MVE 8.2 WEP-FSM 8.2 PMV-APM 8.2
valuemsa	Application <i>Calibration</i> Shows the MSA inspection results	PMV-MSA 8.2
valuemsa.edit	Application <i>Calibration</i> Shows the MSA inspection results.	PMV-MSA 8.2
valuemsa.updateStatistic	Application <i>Calibration</i> Updates the MSA statistic.	PMV-MSA 8.2
AIP-EQD	AIP 8.2 shop floor client: Expanded view of quality data This extension is only available if the product license is available.	AIP-EQD 8.2

15 PDV 8.2

This section deals with the extensions/upgrades available in version 8.2 of the Process Data Collection product group:

Extension	Description	Product
cidt	Application "ID tracing"	PDV-PDM 8.2
fpyprep	Application "First Pass Yield"	PDV-FPY 8.2
gpa	Application "Graphic process analysis"	PDV-GPA 8.2
histp	Application "PDV histogram"	PDV-GPA 8.2
pdpu	Application "Process data protocol"	PDV-SPA 8.2
PDVLogChannelDataType	Application "PDV logical channels" You can configure alphanumeric channels and tags	PDV-PDM 8.2
sclpmrip	Applications "Collection rules", "PDV specification list" and "characteristic attributes". You can use specification list entries for the continuous monitoring.	PDV-VRP 8.2

16 FMEA 8.2

This section deals with the extensions/upgrades available for the FMEA 8.1:

Extension	Description	Product
failnet	Application "FMEA" Access the failure network of the FMEA tree.	FMEA-VDF 8.2
fmea	Application "FMEA overview" Access FMEAs.	FMEA-VDF 8.2
fmea.activate	Application "FMEA overview" Enable FMEAs.	FMEA-VDF 8.2
fmea.copy	Application "FMEA overview" Copy FMEAs.	FMEA-VDF 8.2
fmea.create	Application "FMEA overview" Add FMEAs.	FMEA-VDF 8.2
fmea.deactivate	Application "FMEA overview" Disable FMEAs.	FMEA-VDF 8.2
fmea.delete	Application "FMEA overview" Delete FMEAs	FMEA-VDF 8.2
fmea.edit	Application "FMEA overview" Change FMEAs	FMEA-VDF 8.2
fmea.view	Application "FMEA overview" View FMEAs.	FMEA-VDF 8.2
fmea.team	Application "FMEA overview" Call up the FMEA team.	FMEA-VDF 8.2
fmeadoc	Application "FMEA overview" Assign documents to FMEAs.	FMEA-VDF 8.2
fmeastru	Application "FMEA" Access the FMEA tree.	FMEA-VDF 8.2
fmeastru.create	Application "FMEA" Create new FMEA trees.	FMEA-VDF 8.2
fmeastru.delete	Application "FMEA" Delete FMEA tree structures.	FMEA-VDF 8.2
fmeastru.edit	Application "FMEA" Edit FMEA tree structures.	FMEA-VDF 8.2
fmeastru.view	Application "FMEA" View FMEA tree structures.	FMEA-VDF 8.2
fmevnu	Application "FMEA rating" Access assessment catalogs.	FMEA-EVS 8.2
fmevnu.copy	Application "FMEA rating" Copy assessment catalogs	FMEA-EVS 8.2
fmevnu.create	Application "FMEA rating"	FMEA-EVS 8.2

	Add assessment catalogs	
fmevnu.delete	Application "FMEA rating" Delete assessment catalogs.	FMEA-EVS 8.2
fmevnu.edit	Application "FMEA rating" Change assessment catalogs.	FMEA-EVS 8.2
fmevnu.view	Application "FMEA rating" View assessment catalogs.	FMEA-EVS 8.2
fmevnue	Application "FMEA rating" Access assessment catalog entries.	FMEA-EVS 8.2
fmevnue.copy	Application "FMEA rating" Copy assessment catalog entries.	FMEA-EVS 8.2
fmevnue.create	Application "FMEA rating" Add assessment catalog entries.	FMEA-EVS 8.2
fmevnue.delete	Application "FMEA rating" Delete assessment catalog entries.	FMEA-EVS 8.2
fmevnue.edit	Application "FMEA rating" Change assessment catalog entries.	FMEA-EVS 8.2
fmevnue.view	Application "FMEA rating" View assessment catalog entries.	FMEA-EVS 8.2
tmg	Application "Team members" Access FMEA teams.	FMEA-EVS 8.2
tmg.copy	Application "Team members" Copy FMEA team members	FMEA-EVS 8.2
tmg.create	Application "Team members" Create new FMEA team members.	FMEA-EVS 8.2
tmg.delete	Application "Team members" Delete FMEA team members.	FMEA-EVS 8.2
tmg.edit	Application "Team members" Change FMEA team members.	FMEA-EVS 8.2
tmg.view	Application "Team members" Change FMEA team members.	FMEA-EVS 8.2

17 DMC 8.1

This section deals with the extensions/upgrades available for the DMC 8.1:

Extension	Description	Product
DMC_AutoOPStart	Automatic logon of continuous monitoring orders	DMC-BDE 8.1
DMC_ServerBasedShiftChange	Server-controlled shift change	DMC-BDE 8.1 DMC-MDE 8.1

18 SIS MWV 8.3

This section deals with the extensions/upgrades available for the SIS MWV 8.3:

Extension	Description	Product
mdimode_active	Subwindows of the MOC can be managed as tabs in the MOC program window.	SIS-MWV 8.3
