Clockings

Person 96665 Hanson, Betty

Clocking

Type Attendance

Date 1/3/2011

Time 7:43:21 CEST

To 15:38:51 CEST

Rounded times

Time 7:45:00

To 15:30:00

Settlement date 1/3/2011

Duration 7:15

Day types

Working time day type 100 Flextime Mo-Fr 8h

Shift type

Payment day type 100 Flextime Mo-Fr

Utilization

The clockings are displayed in two table views that can be opened by the two tabs at the lower margin of the clockings dialog. When it comes to the detailed view, several lines are displayed for each clocking record.

Selection Criteria

The application provides the following selection criteria:

Editor

If an editor is entered in this field only clockings are displayed that were created, deleted, changed, approved or rejected by this editor.

Status

By selecting a specific status, the view may be restricted to “original” terminal clockings, “automatically” created clockings (planned absences), “edited” clockings, “deleted” clockings or “paid breaks”.

Toolbar

Authorize

Function authorization: clk.sign

A clocking that is subject to authorization is signed. Once a clocking has been approved, all wage type postings pertaining to it are no longer subject to authorization.

Reject

Function authorization: clk.reject

A clocking that is subject to authorization is refused. Once a clocking has been rejected, all wage type postings pertaining to it, which are neither approved nor rejected, are deleted.

Labor time maintenance

Starts the [labor time maintenance](#) dialog.

Messages listing

Opens the [messages listing](#) for the selected period of time.

Personnel Scheduling

Starts the [personnel scheduling](#) function.
