

1 Access Groups

Summary

Menu	Master data → Access control → Access groups
Transaction code	acgr
Function authorization	acgr

This application manages the access groups existing in the access control system. One or several [entries](#) may be assigned to an access group. [Opening hours](#) as well as [access authorizations](#) are assigned for each access group.

The screenshot shows the 'Access groups' application window. The window has a title bar 'Access groups' and a menu bar with 'Main page' and 'Profile'. Below the menu bar is a toolbar with icons for 'Request data', 'Cancel', 'Print preview', 'Print all', 'Insert', 'Copy', 'Edit', 'Delete', 'Accesses', 'Opening hours', 'Save', 'Help on operation', 'Help on application', and 'Help on detail application'. The main area is divided into two panes. The left pane, titled 'Selection', contains a search bar for 'Access group' and a table with columns 'Access group', 'Designation', 'Location', and 'Responsibility area'. The table lists four entries: 1 Basement Parking, 2 Screw Factory, 3 IT-Department, and 4 Canteen. The right pane, titled 'Access groups', contains a form for editing an access group. It has fields for 'Access group' (set to 1), 'Location' (set to Basement Parking), and 'Responsibility area'. Below these is a 'Last editing' section with 'Modified by' (set to Miller) and 'Modified on' (set to 10/13/2000 7:59:25 AM).

Field Descriptions

Location

Location of the access group. The "location" field is an optional field. Public holidays are assigned using the "location" field, provided that different public holidays exist for different locations.

If the [access time model](#) 1 is available an [opening time](#) that includes this access time model is created automatically, when a new access group is created.

Toolbar

Accesses

Shows the [entries](#) for the selected accesses group.

Opening hours

Shows the [opening hours](#) for the selected access group.
