Overview

Menu	System administration --> User administration --> Users logged in
Transaction code	uslo
Function authorization	uslo

This application shows the users currently logged on to a client (e.g. MOC or SMA). You can log off a specific user and release the [licenses](#):

The screenshot shows the 'Users logged in' application window. The window has a title bar 'Users logged in' and a menu bar with 'Main page' and 'Profile'. Below the menu bar is a toolbar with icons for 'Request data', 'Cancel', 'Print preview', 'Print all', 'Log off user', 'Log off all users', 'License status', 'Save', and 'Help'. The main area is divided into two panes. The left pane, titled 'Users logged in', contains a table with columns: User, Logged in since, Client name, Last activity, and Session ID. The right pane, also titled 'Users logged in', contains fields for 'User', 'Logged in since', 'Client designation', 'Last activity', and 'Session ID'.
