

1 Setting for Approved Postings

Activation on order type

In order to activate the transfer via the interface only for approved postings, you have to set the following parameters at the [order type](#):

Parameter name	Value
Approved order postings only	Active
Approved personnel postings only	Active

Setting for the interface

If you wish to change the default setting for the transfer of unapproved postings, you have to set the following, additional [program parameters for the confirmation program myerprck.exe/out](#) in the [HYDRA Scheduler](#) for the entry of the interface in use:

Parameter name	Value
Command (Windows):	sh.exe ./myerprck.scr <already existing parameters> /ABZEICH=xx
Command (Unix):	./myerprck.scr <already existing parameters> /ABZEICH=xx
