1 Service Interface: client license

Purpose

The "HYDRA Service Interface" connects external systems and applications via web services. Using the services, you can request, receive and process data and therefore use all functionalities that are available in the HYDRA server.

The customer must purchase the SCS-SIC client license "Service Interface" for each connected client.

For more information on the "HYDRA Service Interface", refer to the [Documentation of the basic license SCS-SIF](#):

- Use of the interface
- Released services and PDM dialogs
- Information on the license model
