1 Printing Employee Badges - Overview

Purpose

Application service for creating a layout for employee badges and for printing the badges.

Implementation Considerations

You use the function package if:

- you intend to create employee badges yourself. This may be necessary, for example, if the badges are to be personalized by names or photographs.

Integration

This functional package may be used if the HR master data (function package SIS-IPS) is used.

Features

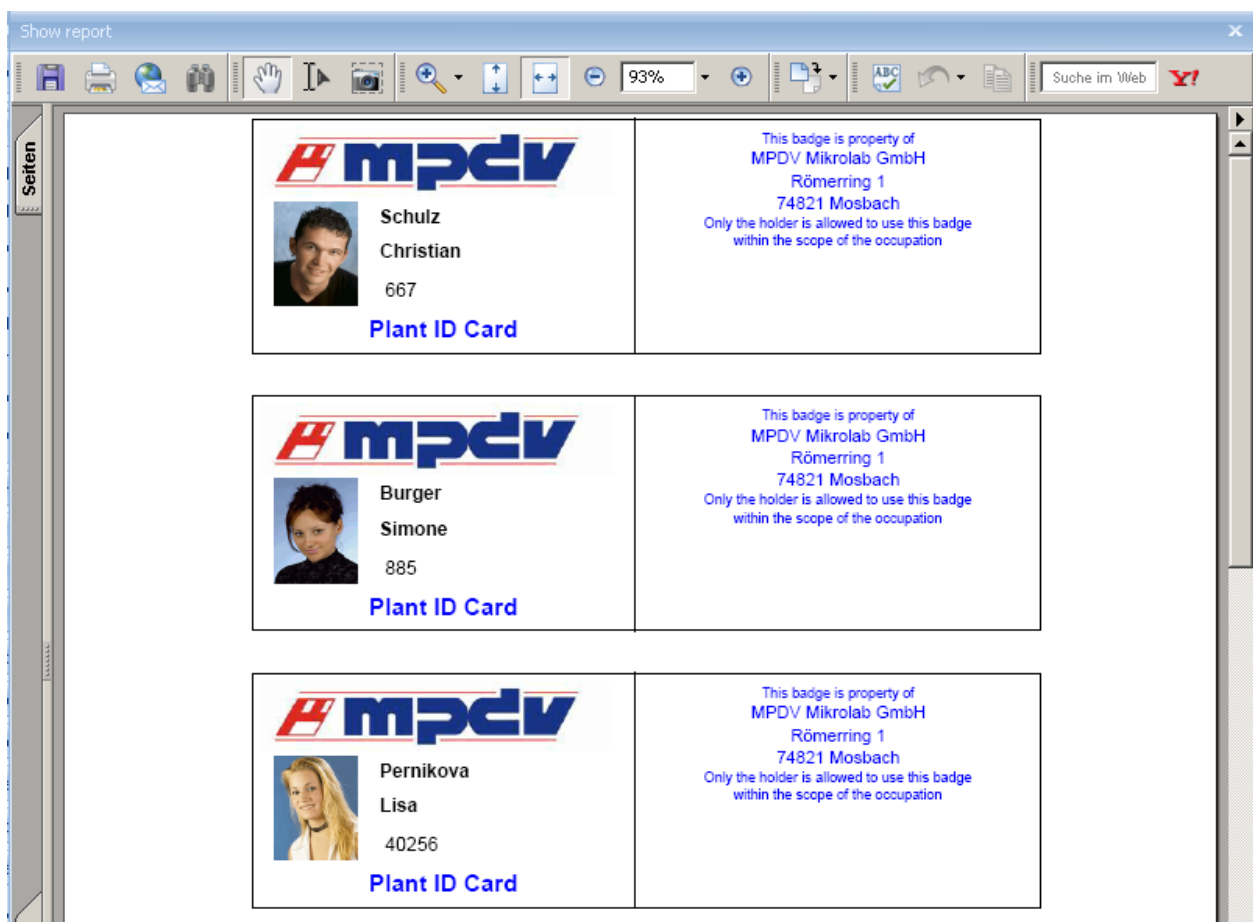

- Printing of employee badges
 - Graphic report generator for staff badge layout design. Employee photographs and company logos can be integrated
 - Printing of employee badges via a card printer
 - Printing of badge number as bar code (e.g. to be read at terminals for order data entry)
