1 HYDRA@Web Absence Workflow - Overview

Purpose

With this function package, employees may request absence times in the Intranet or Internet. In addition, supervisors can also approve or reject their employees' requests by means of a web application.

Implementation Considerations

You use the function package if:

- you wish to map the requests and approvals of absence times via web applications.

Integration

This function package can only be used if absence planning is performed in HYDRA (function package *Assessment of labor time and/or Labor time planning*).

Features

- HYDRA@Web absence requests
 - Calendar for display of requested and scheduled absence times of employees
 - Requesting of absence times and withdrawal of requests
 - Planning of absence times not requiring a request
- HYDRA@Web absence planning
 - Calendar for display of requested and scheduled absence times of employees
 - Requesting of absence times and withdrawal of requests
 - Planning, processing and deletion of absence times not requiring a request

2 Request Absences

Overview

After logging into the HYDRA@WEB Web portal and after the login details have been authorized, the employee may request absence via intranet. In order to be able to request an absence, the Absence planning function must be called up in the Web Portal.

Absence planning

Absence planning begins with an overview of the yearly calendar for the current year and it shows the currently planned absences for the employee.

The interface shows a sidebar with user information (User: Holzinger, Beate; System: Demo-Server) and a main calendar area. The calendar displays the year 2013 with a current balance of 43.0 and an end-of-year balance of 27.5. The calendar grid shows various absence types: 'Fei' (red), 'GLZ' (blue), 'Kra' (red), 'Url' (green), 'Sch' (yellow), and 'F12' (orange).

Requesting absence always begins by clicking on a specific calendar day. A form will open, in which the values for the personnel number, the name and date have already been defined.

The 'Request absence' dialog box contains the following fields:

- Personnel no.**: Last name, First name Holzinger, Beate
- Date**: 09/12/2013 to 09/12/2013
- Absence reason**: Urlaub (dropdown menu)
- Commentary**: (text input field)
- Buttons**: OK, Cancel

The values that identify the person (personnel number and name) cannot be modified. The user may modify the other fields, whereas the entry from the comments field in the calendar is shown as a tooltip. In addition, the comments on the days on which absence is planned are also shown in the attendance overview. Save the entry by clicking on the OK icon. The calendar is then restructured, whereas the requested absence is entered in italics. Absence times that have already been approved or for which a request does not need to be submitted are shown in normal format.

From the configuration [Control of absence times](#) you can define which absence times to select. The settings are defined there from the icon "Absence time may be requested" and "Request needs to be approved".

You can cancel an absence request using the function "Cancel request" as long as it has not yet been authorized or refused. Requested absence times are displayed in italics. To cancel a request, you must again click on the absence time in the calendar.

Absence planning for days in the past opens the form in display mode. You cannot modify these absence times.

3 Absence Planning in WEB

Overview

After logging in at the *MES Info Portal*, a user will be provided with an overview of the requested and scheduled absence times of his/her employees via the *Absence planning* menu item.

Person	PersonName	Activity	Leave	Actual	YearEnd	January 2013
BSP	667Schulz, Christian	Azubi	11.0	26.0	Fel	01 02 03 04 05 06 07 08 09 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29
BSP	40256Pernikova, Lisa	Endmontage	23.0	23.0	Fel	
BSP	40563Grieber, Maria	Endmontage	36.0	36.0	Fel	
BSP	40789Schlüter, Egon	Einrichter	27.5	43.0	Fel	
BSP	50014Albert, Claudia	Meister	20.0	35.0	Fel	
BSP	50201Mayer, Hugo Egon	Schlosser	21.0	33.0	Fel	
BSP	59881Braun, Albert	Dreher	5.0	22.0	Fel	
BSP	85741Meier, Josef	Aushilfe	17.0	21.0	Fel

BSP	96865Holzinger, Beate	Chefsekretärin	13.5	27.5	Fel	
0001	10002541Merz, Klara	Verpacker	24.0	29.0	Fel	
0001	10002630Weis, Sabine	AV	8.0	15.0	Fel	
0001	10002854Becker, Jürgen	Dreher	26.5	26.5	Fel	
0001	10003645Hoffmann, Paul	Schlosser	18.5	18.5	Fel	

In addition to the Company, Personnel number, Name and Activity fields for each person, this person's current leave account status and the calculated leave account status by the end of the year will be displayed.

In the calendar, requested periods of absence are indicated in italics. Absence times which have already been approved or for which a request does not need to be submitted are shown in standard type.

Planning absence times starts with a mouse click on the start date of the period of absence. A form will open in which the fields for personnel number, name and date are set automatically.

The dialog box titled "Absence planning" contains the following fields:

- Person:** 96665
- Name:** (empty)
- Date:** 09/01/2013 to 09/01/2013
- Absence reason:** - (dropdown menu)
- Commentary:** (text input field)
- Buttons:** OK, Cancel

The entry in the Comment field will be shown as a tooltip in the calendar. In addition, the comments on the days on which absence is planned are also shown in the attendance overview.

By clicking on a requested absence time (in italics), a dialog for approving or rejecting the request is opened:

The dialog box titled "Absence planning" contains the following fields:

- Person:** 96665
- Name:** Holzinger, Beate
- Date:** 14/01/2013 to 25/01/2013
- Absence reason:** Urlaub
- Commentary:** Resturlaub vom Vorjahr
- Reason:** (text input field)
- Buttons:** Approve, Reject, Cancel

The editor can also enter reasons for his/her decision in the Reason box.
